Experience

Web Developer

📅 November 2024 – September 2025

📍 Remote

Pain Free Dental Marketing

- Collaborated within an Agile development team of 6 to build, maintain and support websites for dental practices across the U.S.
- Developed and maintained responsive, SEO-optimized websites using **WordPress, Webflow, SvelteKit, HTML, CSS, and JavaScript**.
- Worked extensively with WordPress page builders and CMS environments including **Elementor, Spectra/Gutenberg, Beaver Builder, and Divi**.
- Built reusable UI components and optimized website performance, page loading speed, accessibility, and responsive behavior across devices.
- Troubleshooted frontend and website issues using **browser developer tools**, inspecting JavaScript behavior, network requests, console errors, and third-party scripts.
- Implemented and maintained **third-party integrations**, including analytics, embeds, marketing tools, and client-side scripts across multiple CMS platforms.
- Collaborated closely with designers, copywriters, and marketing strategists to deliver responsive, client-focused websites aligned with client branding, content, SEO, and marketing objectives.
- Participated in **daily stand-ups, sprint planning, code reviews**, and other Agile development processes.

Full Stack Web Developer

📅 February 2023 – March 2023

📍 South Africa

Final Project NGO Partner, CodeYourFuture

- Collaborated in an Agile team of 4 junior developers, 1 product manager, and 2 senior developers to develop an educational website for Edufocus Projects.

- Built a responsive **6-page full-stack application** using **React, Express.js, and PostgreSQL**.
- Implemented user registration/login, CRUD functionality, training materials, image management, and contact functionality.
- Used **Git and GitHub** for version control and team collaboration.
- Tested and debugged the application to identify and resolve functionality and usability issues.
